

Pregnancy brings about many questions. PPI has put together a list to help guide the discussion at your next prenatal visit.

#### Sample Questions To Ask Provider

- I delivered a baby unexpectedly before 37 weeks. Could this happen again?
- What are my risk factors for preterm birth?
- How can I reduce my risk and have a better chance for a full-term pregnancy?
- What are the signs and symptoms of preterm labor?
- What should I do if I have signs and symptoms of preterm labor?
- Will 17-P or another intervention help lower my risk of preterm birth?
- If I have a preterm birth will my baby need to stay in the NICU?
